Wild Pokémon Encounter Tables

Comprehensive Guide to Wild Pokémon

About This Document

This document provides complete encounter tables for wild Pokémon available in the game. Each location is documented with detailed information about which Pokémon can be found, their encounter rates, and the level ranges you can expect to encounter them at.

Credits to Specker for extracting eggs, static, and gift Pokémon

Fishing Encounter Color Guide

Fishing encounters are color-coded by the type of fishing rod required:

Old Rod

Good Rod

Super Rod

How to Use This Guide

- Each location shows encounter tables for different methods (Land, Surf, Fishing, Rock Smash)
- Level ranges indicate the minimum and maximum levels you can encounter each Pokémon
- Encounter rates show the percentage chance of finding each Pokémon
- Colored bars in fishing tables indicate which fishing rod is required
- Empty sections mean no Pokémon are available via that method in that location

This document has been carefully compiled from the source code to ensure accuracy. Please report any errors if you find them.
